

REMARKS:

Prior to entry of this Amendment, claims 2-5, 8-16, 19-26, 28, 71, 92-94, 98 and 99 are pending. Of those claims, claims 16, 19-26, 28, 71, 93-94 and 98-99 are allowed. Applicant thanks the Examiner for this indication of allowable subject matter.

Claims 2-5, 8-15 and 92 are rejected under 35 USC Section 112, second paragraph, as being indefinite. In particular, the Examiner contends that there is insufficient basis for "said first limitation" at line 9 of independent claim 92, from which claims 2-5 and 8-15 depend.

Applicant respectfully points out that "said first limitation" is not recited at line 9, claim 92. However, in the interest of advancing the prosecution of the subject application, claim 92 is further clarified to recite "in a first mode" at line 4 to be consistent with "one of said first second modes" recited at line 9. Accordingly, the Examiner is respectfully requested to reconsider and withdraw the outstanding rejection.

For completion, it is noted that claims 16, 93, 94 and 99 also are clarified to improve upon the wording of the claims. New apparatus claims 100-102 also are added. Support for the foregoing exists throughout the specification and in the claims. See, for example, Applicant's allowed claims. No new matter is introduced into the application as a result of the foregoing.

The foregoing clarifications are not made for reasons related to patentability and the full range of equivalents should remain in tact.

The Examiner also is kindly requested to return an initialed PTO 1449 form to Applicant regarding the supplemental IDS filed on November 19, 2008.

All issues having been addressed, the subject application is believed to be in condition for immediate allowance and such favorable action is earnestly solicited. A Notice of Allowance is thereby requested. Should any unresolved issues remain, the Examiner is invited to call the
